

HydroHero Pledge

Every drop of water is precious. Let's think twice before turning the tap on!

Water plants with the same water used for washing vegetables and fruit.

Turn off the tap while brushing teeth, soaping hands or shaving.

Fix dripping taps promptly.

Do not thaw food under running water. Let it defrost overnight inside the fridge instead.

Take shorter showers instead of baths.

Only run washing machines or dishwashers with a full load

I, _____ (name), pledge to use water wisely and to not even waste one drop. I pledge to be a HydroHero!
